

## 2008-2013 Work Plan

### Short-Term Crustal Dynamics Priorities

Short-Term Crustal Dynamics Working Group priorities for Sep 2008 – Aug 2013.

#### Year 1: Sep 2008 – Aug 2009

- Continue development of PyLith
- See PyLith Development Plans
  
- ??
- Workshop??

#### 2: Sep 2009 – Aug 2010

Continue development of PyLith  
??

#### Sep 2010 – Aug 2013, CIG-II

Continue development of PyLith  
Collaborate with computer scientists in developing robust mesh generators for geologic applications.  
Collaborate with computational scientists in developing efficient, scalable solvers/preconditioners for earthquake cycle problems.
