

## Main Page

### What are wiki pages?

Wiki pages are user-written articles on a range of subjects. Any contributor or a group of contributors can create (and own) new articles, and there can be multiple articles on the same wiki, each written by a different author.

### Who can make a wiki page?

Anyone with an account can create a new article. When creating a new article, the initial contributor can choose to have a defined list of authors, all of whom can edit the page, or have an open, wiki-like format where anyone can contribute.

### [Help: What Is Wiki](#)

Created on 28 Oct 2020

What is Wiki? A wiki is a collaborative software program that allows users to add or edit content on a Web page without having to know HTML or programming languages. Most commonly, the term wiki refers to a Web page that can be revised by anyone. Creating and editing wikis are very simple; all...
